CARMAZZI GLOBAL SOLUTIONS
2010 SPONSOR OF THE 1ST NORTH AMERICAN SUMMIT ON INTERPRETING

Dear James,

New ideas are always a hard sell. Something perceived in hindsight as “groundbreaking” or “game changing” is usually considered “unproven” or “risky” before it proves its worth. Such was the case of the 1st North American Summit on Interpreting. Two years ago, when we began to envision the Summit, we had the faith that the time was right for the interpreting industry/profession to come together. We knew that it would be a huge undertaking and something we could not achieve alone.

With the unqualified success of the 1st Summit now a part of interpreting history in North America, we want to express our gratitude to Carmazzi Global Solutions for sharing InterpretAmerica’s vision of a more unified interpreting field. Your decision to become a Gold Sponsor of the 1st Summit has had a direct and measurable impact on the development of interpreting in North America.

As we begin preparations for the 2nd North American Summit on Interpreting,

With appreciation,
